

Date:.....

Dear LCC General Manager and Lane Cove Councillors,

I have recently been informed that the Council is currently allocating its budget including towards Lane Cove's bicycling infrastructure. Apparently it now stands at only \$50,000 from Lane Cove Council (possibly matched by the RTA).

I am very concerned that this is completely inadequate to the needs of the community. To support and encourage cycling we need much better and safer cycling infrastructure in Lane Cove.

Please increase Lane Cove Council's funding for cycling infrastructure to at least \$400,000 for 2010-11 so that the Lane Cove can build bike paths and bike routes as recommended in the Lane Cove Bike Plan.

If Lane Cove invests a significant amount to cycling infrastructure, this should also help Lane Cove to get additional infrastructure funding from NSW state government and the federal government.

Sincerely,

.....
