

STOP the NightMARE on WILLIAM STREET

Sunday July 16th - Deputy Premier John Watkins'
Electoral Office - 123 Blaxland Road, RYDE.

On June 5, (World Environment Day) the government announced its intentions to remove the recently completed environmentally friendly bike lanes on William St. to increase traffic capacity, along with pollution, into the city. This not only threatens the SOLE inner-city bicycle lanes but also the the LANE COVE TUNNEL bicycle lanes.

Cycle at a moderate pace from John Watkins' local electoral office into William St. via Meadowbank & Five Dock. We will be arriving 12:00pm at Kings Cross; meeting other cyclists near the big Coke sign to see and cycle William St. and demand an end to this Nightmare on William Street.

Distance = 50km (return)

Contact = Scott
